Una prima impressione

Located in the middle of the majestic Vondelpark, we offer you an extraordinary and attractive ground floor apartment. Built around 1880, designed by architect P.J.H. Cuypers in eclectic style, the property first belonged to the Vondel Church. This unique building breathes history and charm, with many authentic features that are still present, such as breathtakingly high ceilings and various other monumental details including the beautiful stained glass. Unique is the continuous balcony of the 108-B across the entire width of the façade on five heavy stone consoles with volutes. The balcony was completely renovated in 2022 where all historical elements were also restored. The property is a National Monument with both a front and backyard that contribute to the exclusivity of this beautiful residence. This property is truly a paradise for a family, with 6 bedrooms and office/guest room.

Tutto sulla posizione

The property is located on the most beautiful part of the Vondelstraat, in 'the best of both worlds': 100 meters away from the Vondelpark, 3 minutes by bike from the Concertgebouw and the popular shopping street P.C. Hooftstraat and in a radius of 700 meters there are several schools. The unique thing about this place is the oasis of peace in the middle of the center, with a parking space in front of the door.
